Capability Statement

Codistry LLC

Company Overview

Codistry LLC is a U.S.-based software delivery firm specializing in secure, compliant digital systems for government agencies and regulated organizations. We design and build human-centered platforms aligned with federal security, privacy, and accessibility expectations—without sacrificing delivery speed or usability.

We focus on helping agencies and contractors move from requirements to acceptance with confidence.

Core Competencies

- Secure, compliance-aligned software delivery (web, mobile, and SaaS)
- NIST SP 800-171–aligned development and documentation practices
- Accessibility-first design and validation (Section 508 / WCAG 2.2 AA–aligned)
- Privacy-aware system architecture (HIPAA, GDPR, CCPA contexts)
- Custom application development and system modernization
- API integration, data workflows, and reporting platforms
- Agile delivery with audit-friendly artifacts

Differentiators

- **Acceptance-First Delivery**: Systems are designed to pass security, accessibility, and compliance reviews—not retrofitted after build.
- **Audit-Ready Documentation**: Architecture diagrams, control mappings, and delivery artifacts produced incrementally during development.
- **Compliance Without Overclaiming**: Alignment to federal frameworks without claiming certifications not yet achieved.
- **Human-Centered by Design**: Accessibility, usability, and clarity built into workflows.
- **Lean, Senior-Led Teams**: Direct access to experienced engineers—no junior staffing layers.

Delivery Capabilities

- Web applications (React, Drupal, WordPress)
- Mobile applications (iOS, Android, hybrid)
- Secure APIs and integrations
- Data dashboards and reporting systems
- Cloud-ready architectures
- Accessibility validation and remediation support

Security & Compliance Alignment

Codistry aligns delivery practices with industry and federal guidance, including:

- NIST SP 800-171 (implementation in progress)
- Secure access control and role-based permissions
- Audit logging and traceability strategies
- Privacy-aware data handling patterns
- Accessibility validation aligned with Section 508 and WCAG 2.2 AA

Codistry does not claim certifications not yet achieved. Formal security documentation (e.g., SSP, POA&M;) is produced as required by project scope.

Accessibility Commitment

- Keyboard-operable interfaces and focus management
- Semantic HTML and assistive technology support
- Color contrast validation
- Accessibility review notes and remediation tracking
- Documentation supporting Section 508 acceptance reviews

Privacy-Aware Delivery

- Data minimization and purpose limitation
- Secure handling of PII and PHI
- GDPR-aware system design when EU data is involved
- Clear privacy documentation and notices
- Incident-response-ready workflows

Business Information

Legal Name: Codistry LLC
Business Type: Small Business (Self-Certified)
SAM.gov: Active
UEI: MP6NRKHNCDC1
CAGE Code: 147H0

NAICS Codes

- 541511 – Custom Computer Programming Services
- 541512 – Computer Systems Design Services
- 541513 – Computer Facilities Management Services
- 541519 – Other Computer Related Services
